

Walker Middle School Salem, Oregon

DESCRIPTION As Project Coordinator, JJHCo managed the interface between the General Contractor, Architect, Salem Keizer School District, various insurance companies and various attorneys for this project. The project involved the evaluation and remediation of a recently completed expansion project that developed extensive moisture intrusion problems. The project included the removal of the exterior building EFIS skin and installation of a three-part plaster system for the new skin. The construction work was started during the summer vacation and was completed in the fall.

SERVICES Construction Coordinator

BUDGET \$400,000

FINAL COST \$400,000
