

Mitsubishi Silicon America
(Previously Siltec Corporation)
Salem, Oregon

DESCRIPTION The Analytical Lab was constructed for Mitsubishi Silicon America, previously Siltec Corporation in Salem, Oregon. The building is located in the Cherry Industrial Park. The facility was constructed as a stand-alone facility for research, development and forensic investigation for the manufacture of silicon wafers and integrated circuits. The facility was designed and constructed on a fast track basis in a period of one (1) year. J. J. Henri Co., Inc. provided design/build services.

SERVICES Design-Build, CM/GC

BUDGET \$5 Million

FINAL COST \$5 Million
